

EM-SIGN 2 – EMERGENCY LUMINARE

The EM-SIGN 2 is a range of high-quality LED exit sign luminaires that are ideal for contemporary architectural environments and integration into existing installations.

There are two different sizes available for a 25m and 30m viewing distance. The legend plate clips directly into the module base offering simple installation. A complete set of EC and ISO legend panels are supplied with each luminaire.

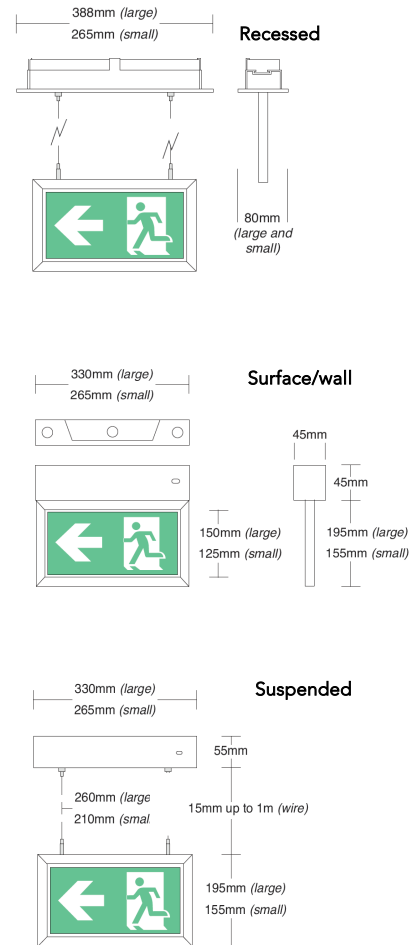

FEATURES

- Surface/wall, suspended or recessed mounted.
- Suspended panel can be set at different heights by connecting the wires through the locking clutch. The power supply to the LEDs is fed directly through the suspension wires.
- Non-maintained or maintained emergency operation.
- DALI/Self-Test options include an integral DALI self-test gear or standard DALI operation which is fully interoperable when connected to an existing DALI control system.
- IP40 ingress protection as standard.
- The framed panel has a specially screen printed finish to ensure uniform illumination of the safety sign legend.

SPECIFICATION

Colour Temperature CCT	4500K
Power - Maintained	4W
Power – Non-maintained	3.1W
Light Source	LEDs
View Distance	25m 30m
Battery	6.4V 600mAh - Standard 3.2V 3.2Ah - DALI
Charge Power	0.7W
Emergency	3 Hours
Finish	White Black
Dimensions	See Dimensional Drawings
Exit Sign Legend Panels	Complete set supplied
Operating Voltage	220/240V 50/60HZ
Material	Polycarbonate/Aluminium
Installation	Recessed Surface/Wall Suspended
Ingress Protection	IP40
Lifetime	54,000hrs L70
Weight	2.5 kg
Operating Temperature	-0°C~45°C
Conformity	No UV or IR Emissions, UKCA, Class II, RoHS
Warranty	5 Years
