FLEX LINE TW 15 – FLEXIBLE LED TAPE

Our flexible LED tape is suitable for indoor applications such as alcoves, cabinets, architectural accents, and display lighting.

We offer a comprehensive range of low-profile aluminium channels and diffused optics that can accommodate all our flexible LED tape, making it ideal for office, retail, residential, leisure, and hospitality spaces.

Delivered in 5m reels with clearly marked cut points, allowing for easy on-site cutting for custom applications.

FEATURES

- Dot-free single line illumination
- Efficiency up to 107 lm/W
- Tunable white 2700K-6500K
- CRI90
- IP20 ingress protection as standard
- Maximum single length 5m
- Can be cut and reconnected on-site
- 54,000 hours LED lifetime
- 5 year warranty

SPECIFICATION

Power	15 W/m
Colour Temperature	2700K-6500K Tunable White
Luminous Flux	1605 lm
Lumen Efficacy	Up to 107 lm/W
PCB Width	10 mm
Max. Run Length	5000 mm
Cut Length	27.8 mm
Height	1.8 mm
Installation	Surface-mounted (3M adhesive tape)
Operating Voltage	24V
CRI	90
MacAdam	3-Step
Controls	Fixed Output | DALI | 1-10V
Ingress Protection	IP20
Bending Radius	Curved on-site or in channel
Lifetime	54,000hrs
Operating Temperature	-25°C ~45°C
Conformity	No UV or IR Emissions, UKCA, RoHS
Warranty	5 years
Notes	*Custom lengths and flexible LEDS available on request, LED light source and lumen efficiency may vary.
